

BENEFACT
TRUST

Our top tips on:

Choosing photos for an application form

Photos need to be between 1mb to 5mb in size, most photos taken on modern smart phones will be within this range. If your photo is larger than 5mb try resizing it.

Remember, Benefact Trust cannot process your application unless it contains at least one photo.

Benefact Trust may need to use your photos for publicity purposes, so please ensure you have secured consent before attaching them to your application.

Try to upload photos with your application which could look good in the local newspaper. We'd prefer to see photos of people having fun over broken loos or damaged buildings!
